

Elevate Your Commercial Space *with* ChromaLuxe

ChromaLuxe[®]

True to your vision[®]

Commercial Spotlight

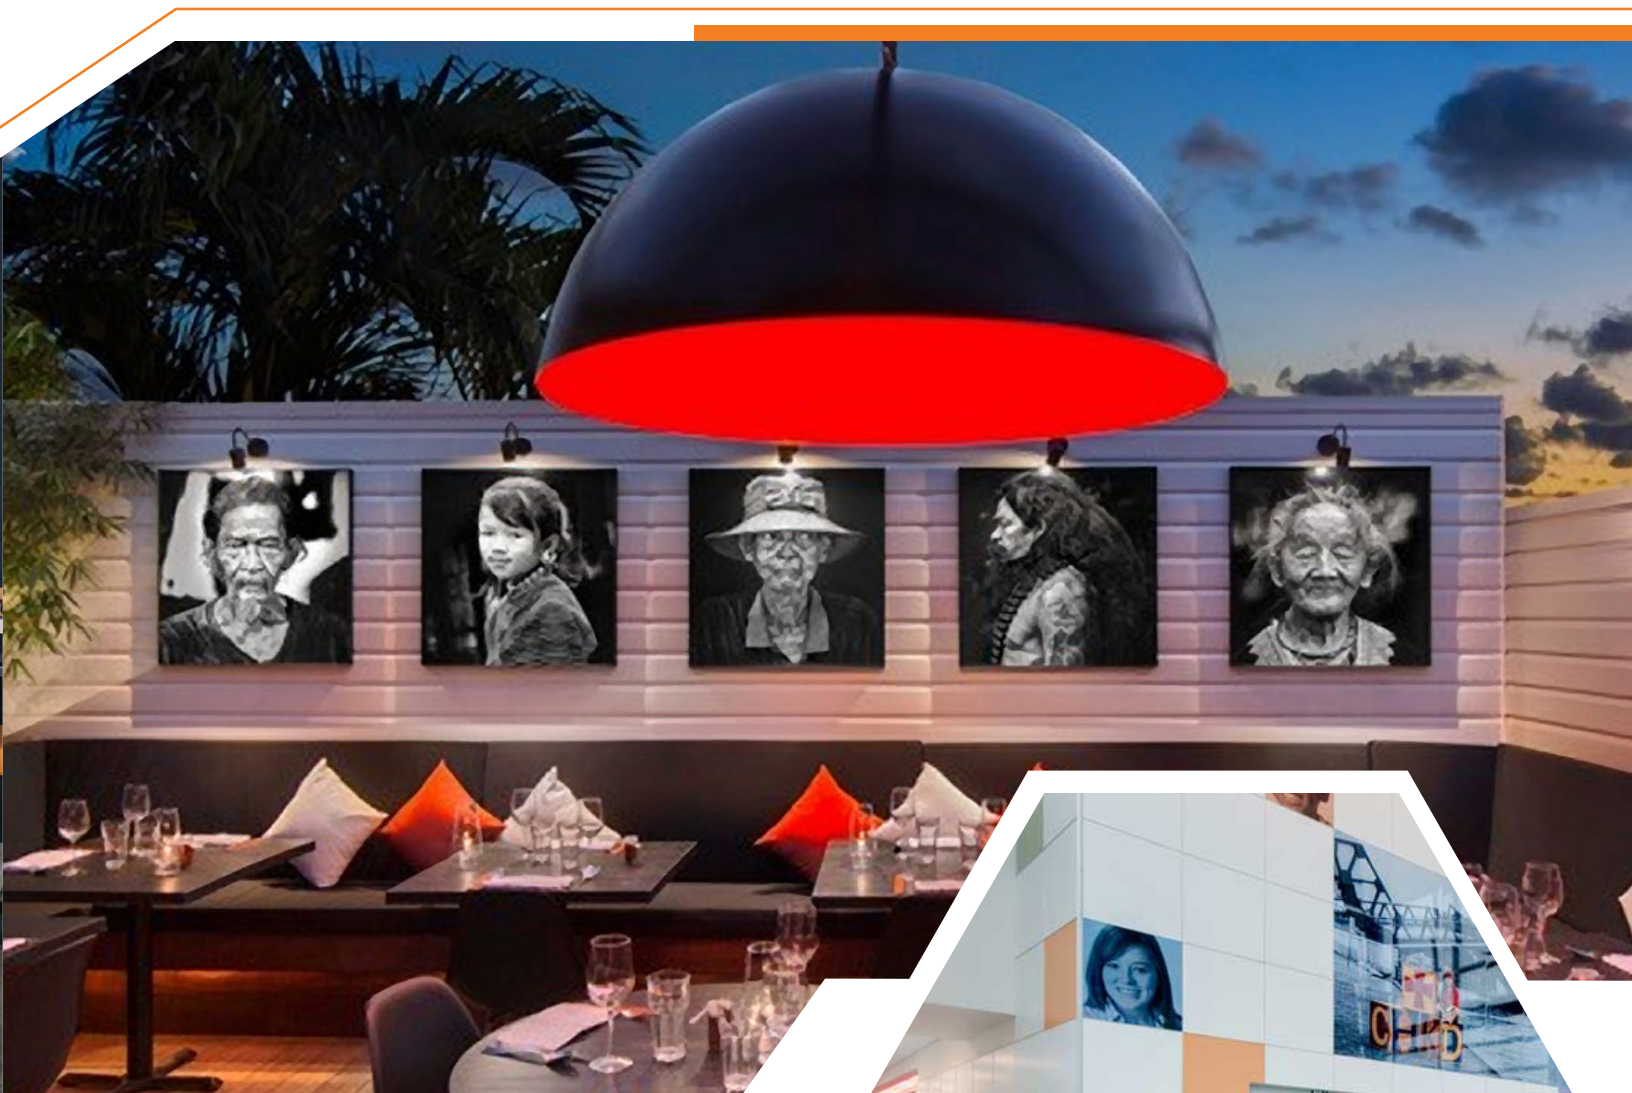

ChromaLuxe

ChromaLuxe is the perfect choice for transforming commercial spaces through stunning visuals. As the world's leading manufacturer of high definition sublimatable print media, our panels provide both stunning color brilliance and unmatched durability. From corporate offices to highly trafficked retail areas, ChromaLuxe's high-definition wood, aluminum, and textured panel materials create long-lasting stopping power.

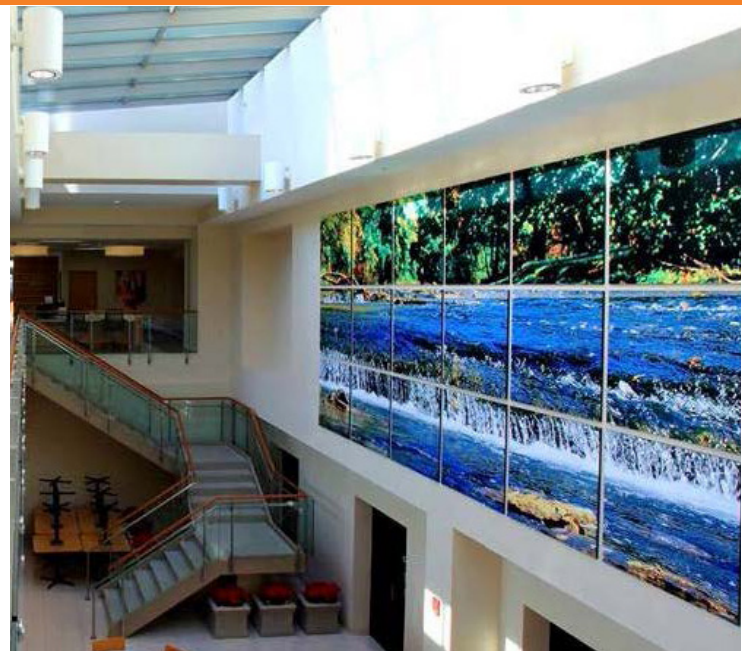

ChromaLuxe[®]
True to your vision

WORLD-CLASS DESIGN EXPERIENCES

We know how important brand color matching and environment immersion are to commercial installations. ChromaLuxe focuses on the details to deliver truly stunning design possibilities. Instead of printing images directly on an easily scratchable surface, dye sublimation printing infuses the image into our proprietary coating to create incredible depth, detail, and durability. Our metallic panels seamlessly combine for larger projects so we can accommodate virtually any size needed for a variety of commercial applications.

UNMATCHED QUALITY AND EXPERTISE

Behind every ChromaLuxe product is a team of experts who have crafted the ultimate panel for both visual excellence and durability. Our patented coatings, full inspection process to guarantee fidelity, and a reproduction color gamut that is the broadest in the industry, guarantee showstopping results. The chemical resistance means our panels are easy to clean without damaging the surface coating, making them a hygienic choice well suited for today's environment. Resistance to scratches, stains, UV fading, glare, and even fingerprints, keeps our images vibrant longer.

Take the next steps to enhance your commercial space by visiting our website. Connect with an expert who will guide you through our products to find the perfect solutions for your project as well as identifying ChromaLuxe printers near you.
